

# AGENDA

## Welcome!

To mark European Fertility Week 2019, Fertility Europe organized this event in the European Parliament. With this meeting, hosted by MEP Bartosz Arłukowicz (Poland, EPP), we hope to shape the conversation about fertility and infertility in Brussels and ultimately in Europe.

In 2018 Fertility Europe developed a Call to Action, urging policymakers across the EU to help improve the lives of people experiencing fertility problems. As part of a focus on fertility awareness, Fertility Europe is counting on policymakers to engage the public sector in providing better information about fertility and infertility.
